

ALABAMA DISTRICT, PILOT INTERNATIONAL

District Project Proposal for 2022-2023

The District Project Committee has proposed two projects for the club year 2022-2023.

1. To sponsor the sensory room located in an addition to the Back Forty Barn at Camp ASSCA. The sensory room will include a hammock, mini exercise trampoline, bubble tube, bean bag, activity board, large stuffed animals and other sensory objects and activities. The Alabama District contribution will cover the cost of these items.

Cost: \$2500.00

Rationale: The sensory room will be a quiet area particularly useful for campers with Autism and processing disorders.

2. To provide funds for the Alabama District Traumatic Brain Injury Camp at Camp ASCCA. These funds will help with needed supplies and fun activities for the TBI survivors and their caregivers while enjoying their time together at the weekend camp sponsored by Alabama Pilots.

Suggested amount: \$2500.00

Rationale: approximately twenty-five (25) campers and their caregivers will participate in all of the events offered at camp. The suggested amount would help with materials for activities such as painting projects, crafts, games, camp T-shirt and the Saturday night dance party decorations and refreshments.

TOTAL AMOUNT OF PROJECTS: \$5000.00
